## Additional Overview Content

#### Executive Summary:

The U.S. Nuclear Regulatory Commission (NRC) is an independent agency, established by the Energy Reorganization Act of 1974, tasked with licensing and regulating the Nation's civilian use of byproduct, source, and special nuclear material to ensure adequate protection of public health and safety, to promote the common defense and security, and to protect the environment.

#### Type of Award:

This FOA will result in grant awards.

**Funds Available and Anticipated Number of Awards:**

The total amount of funding available for faculty development will depend on the agency's final FY 2015 appropriation of funds. The NRC expects to support a limited number of awards of up to approximately \$450,000.00 total costs per institution through this announcement. The number of awards for FY2015 depends on the number, quality, duration, and costs of the applications received. Future year amounts will depend on annual appropriations.

**Budget and Project Period:**

The maximum amount of funding that the NRC will award for an application may not exceed \$150,000.00 total costs per year, provided that an additional \$50,000.00 is fully matched by the institution (for a total of \$200,000.00 per year given full match of \$50,000.00 per year from the institution). Awards are for three years and may not be renewed.

**Eligible Institutions:**

See [Section III, 1.A.](#) for eligible institutions.

### **Section I. Funding Opportunity Description**

#### **1. Program Objectives**

This program provides funding to support nuclear science, engineering, and related disciplines to develop a workforce capable of supporting the design, construction, operation, and regulation of nuclear facilities and the safe handling of nuclear materials. This announcement is for faculty development grants.

The objectives of the Faculty Development Program are to attract and retain highly-qualified individuals in academic teaching careers. The grants specifically target probationary, tenure-track faculty during the first 6 years of their career and new faculty hires in the following academic areas: Nuclear Engineering, Health Physics, Radiochemistry, Probability Risk Assessment (Levels 2 & 3) and related disciplines.

Grants may include support for developing applications for research and amounts for initiating or continuing research projects in their areas of expertise. Other areas might include course development, equipment, stipends, participation in professional society meetings, and preparation of papers, travel, and associated expenses. The NRC may increase funds to the extent that a portion of the award is matched by the institution. The program provides support to enable newer faculty to enhance their careers as professors and researchers in the university department where employed. The research supported by this announcement is intended to benefit the nuclear sector broadly.

See [Section VIII, Other Information - Required Federal Citations](#), for policies related to this announcement.

### **Section II. Award Information**

#### **1. Type of Award**

It is anticipated that this FOA will result in the award of multiple grants.

## 2. Funds Available

The NRC expects to support a limited number of awards of up to approximately \$450,000.00 total costs per institution through this FOA to support faculty members, if you provide cost share or matching funds.

Awards issued under this FOA are \$100,000.00 total costs (i.e., direct cost plus facilities and administrative costs) per year for each faculty recipient plus up to an additional \$50,000.00 per year, to the extent matched your institution, for up to 3 years. The maximum amount of funding that NRC will award for an application may not exceed \$150,000.00 total costs (i.e., direct cost plus facilities and administrative costs) per year, provided that an additional \$50,000.00 is fully matched by your institution (for a total of \$200,000.00 per year given full match of \$50,000.00 per year from the institution).

## 3. Cost Sharing

Cost sharing is not required for applications requesting up to \$100,000.00 total costs (i.e., direct costs plus facilities and administrative costs) per year. However, institutions are encouraged to leverage NRC funding to enhance the educational benefits of the NRC grant. Applications demonstrating such leveraging to further the goals of this announcement will receive additional consideration in the peer review process (see [Section V.1](#)). Applications must include a written agreement or letter from the source of the matching funds.

Leveraged (non-Federal funds) funds may be used to build infrastructure in nuclear and nuclear-related disciplines and may include a variety of areas ranging from student support to facility improvements or expansion. For this announcement, leveraging means additional cash contributions that enhance the overall goals of the faculty development program. Up to an additional \$50,000.00 is available from NRC provided that the amount is fully matched by the institution (for a maximum total of \$200,000.00 per year given full match of \$50,000.00 per year from the institution.) The degree of leveraging (cash preferred) will determine the additional scoring credit awarded in the peer review process.

The NRC requires all prospective awardees to be registered in the System for Award Management (SAM) database prior to award, during performance, and through the end of the project period. You should allow processing time of at least 48 hours, when registering

with SAM. If you are not currently registered, we recommend that you consider registering immediately to avoid delays. You obtain registration information at <http://www.sam.gov>.

## 1. Request Application Information

You must download the SF424 application forms and instructions to apply for this FOA through [Grants.gov/Apply](http://www.grants.gov/Apply).

## 2. Application Forms and Content

Prepare your application using the SF424 application form. Both the application form and instructions for completing it can be downloaded from <http://www.grants.gov/Apply/>.

The SF424 application has several components. Your application is complete only if it includes the following components:

### Required Components:

- SF 424 – Application for Federal Assistance - CFDA Number: 77.008
- SF 424A – Budget Information - complete Sections A, B, C, D, E and F
- SF 424B – Assurances and Certifications
- SF LLL – Disclosure of Lobbying Activities

**Allowable Costs:** Allowable costs must be with 2 CFR, [Subpart E—COST PRINCIPLES](#), be well documented and fully justified for the activities proposed. Grant funds may not be used to supplant funds otherwise available at the applicant institution. These costs include but are not limited to the following: materials, supplies, travel to professional meetings, support to defray graduate student participation expenses, such as student compensation (when appropriate) and other student costs (e.g., fees or books) as related to research projects or an institution's faculty development plan. You must provide documentation of tuition rates, if included in the application. It is recommended that you consult NRC contacts identified in [Section VII](#), if there are any questions regarding allowable costs.

**Personnel:** The Principal Investigator will be solely responsible for planning, directing, and executing the proposed project. Individuals participating in the design and implementation of the grant may request salary and fringe benefits appropriate for the person months devoted to the program. These expenses must be itemized in Sections A and B, as appropriate, of the SF 424A Budget page. Salaries requested may not exceed the levels commensurate with the institution's policy for similar positions. Mentoring interactions and other activities with students/participants are considered a regular part of an individual's academic duties, then mentoring and other interactions with students/participants are non-reimbursable from grant funds. Limited administrative and clerical salary costs associated distinctly with the program, that are not normally provided by the applicant organization, may be direct charges to the grant only when specifically identified and justified.

Graduate students may be included on applications. Graduate students should not be listed as PIs, co-PIs, or senior personnel and their participation must directly relate to the faculty development plan. Unaffiliated PIs need to be formally affiliated with an accredited institution of higher education to be involved in this competition.

**Other Program-Related Expenses:** Consultant costs, limited equipment, supplies, travel for key persons, and other program-related expenses **must be justified** as specifically required by the proposed program and must not duplicate items generally available for educational programs at the applicant institution. These expenses must be itemized, as appropriate, in the SF424A object class categories and fully documented in the budget justification. Committed Cost Sharing/Matching becomes an official part of the budget and should be documented on the SF424A and the proposal budget justification page.

**Institutional Commitment and Responsibilities:** The institution must demonstrate a commitment to the purposes of this FOA in the fields of Nuclear Engineering, Health Physics, Radiochemistry or related disciplines. Evidence of institutional commitment to the program is strongly encouraged. The PI and the grantee institution are expected to have or to develop an administrative structure that enables faculty, academic administrators, and others involved in the project to interact productively during the award period. All faculty development plans are expected to include a proposed strategy for attracting, preparing, and retaining faculty.

**Facilities and Administrative (F&A) Costs:** F&A costs will be calculated using negotiated cost rates in effect at the time of the award. If the rate agreement does not extend to the end of the performance period, the last effective rate will be used to establish the total cost commitment for any remaining future years. A copy of the institution's current rate agreement is required in the application with the budget justification.

## **6. Other Submission Requirements and Information**

### **Automated Standard Application for Payments (ASAP)**

The NRC uses ASAP for recipient reimbursement. ASAP is a recipient-initiated payment and information system, designed to provide a single point of contact for the request and delivery of Federal funds. ASAP was developed by the Financial Management Service (FMS) of the U.S. Treasury and the Federal Reserve Bank (FRB) of Richmond. For information about ASAP, see <http://www.fms.treas.gov/asap/> Recipient organizations

must be enrolled in [ASAP.Gov](#) and their bank account must be linked to the NRC Agency Link Code (31000001) to receive funds.

### **Organizational Dun and Bradstreet Numbering System (DUNS)**

The DUNS (Dun and Bradstreet Numbering System) number on the application must match the DUNS number provided in the [System for Award Management \(SAM\)](#) at <https://www.sam.gov> with <http://www.grants.gov>.

For additional information, see <http://www.grants.gov/web/grants/applicants/applicant-faqs/obtaining-duns-number.html>

If the Payee DUNS for [ASAP.Gov](#) is different from the DUNS number provided in the [Sam.gov](#) registration, please include the Payee DUNS at the end of the budget narrative under the heading ASAP DUNS. Payments may be delayed if this information is missing in the application.

### **FedConnect**

Applicants are strongly encouraged, however, not required to register with FedConnect at [www.FedConnect.net](http://www.FedConnect.net). Applications must be submitted through Grants.gov and may also be submitted through FedConnect. **Please see attached instructions on using FedConnect at: [FedConnect: Ready, Set, Go!](#)**

## **Section V. Application Review Information**

### **1. Full Review Criteria**

Applications are evaluated and rated individually by multiple peer reviewers using both Federal and non-Federal experts in the field. **The following criteria items must be addressed and clearly labeled.** These items are used to evaluate applications using the corresponding weighted value.

1. Capacity and ability of the institution to effectively conduct the program, including quality and feasibility of the recruitment and marketing strategies. **(25 points)**
2. Quality of faculty that will be served by the program. **(20 points)**
3. Feasibility and completeness of an evaluation plan to measure the effectiveness of the faculty development program. **(25 points)**
4. Institutional support for the program and plans for sustainability. **(25 points)**
5. The amount and type of leveraged funding that was initiated due to this announcement. **(5 points)** \*To receive total points for this criteria item, a written agreement or commitment letter from nuclear industry partners, national laboratories institution must accompany the application.

### **2. Review and Selection Process**

#### **2.A. Review Process:**

The NRC conducts an initial administrative review to determine that the proposal is complete and complies with the announcement's requirements. Ineligible applications or

non-responsive applications may not be reviewed. You may withdraw your application at any time.

The NRC protects the information contained in an application from unauthorized disclosure, consistent with the need for objective review of the application and the requirements of the [Freedom of Information Act and the Privacy Act](#). However, if a grant is awarded, the Federal government has the right to use or disclose the information to the extent authorized by law.

Applications are peer-reviewed and rated using the evaluation criteria and point values provided above (Section V.1). Both Federal and non-Federal experts may be used in this process. Peer reviewers' identities remain confidential. All peer reviewers must sign a conflict of interest form prior to acceptance as a reviewer. The applications, proposals and associated materials made available to reviewers, including the discussions that take place during review meetings are strictly confidential. Individual peer reviewers' scores are averaged and rated prior to being presented to the selecting official.

## 2.B. Selection Process:

The highest ranked applications will receive priority consideration for award within the available funding. The selecting official makes the final award recommendations. The selecting official generally recommends funding in rank order unless an application is selected because of one of the following factors:

- Availability of funding.
- Support geographic diversity.
- Assure diversity in disciplines.
- Whether the project duplicates other projects NRC is funding or considering funding.
- Program priorities and policy factors.
- Needs that the Commission determines to be critical to the NRC's regulatory mission.
- Applicant's prior award performance.
- Previous expenditures and on-time progress report submissions.
- Limiting the number of multiple NRC grant awards to individual institutions.

Prior to award, you may be asked to modify your application and budget, or provide supplemental information, as required by the NRC.

The decision to award is discretionary.

## 3. Earliest Anticipated Award Date

The earliest anticipated start date for this Funding Opportunity Announcement is October 1, 2015.

---

## Section VI. Award Administration Information

## 1. Award Notices

Formal notification in the form of a Notice of Grant/Assistance Award will be provided to the applicant organization. The Award signed by the grants officer is the authorizing document, and the grants officer is the only person authorized to obligate monies and permit changes to approved projects on behalf of the NRC. Once all administrative and programmatic issues have been resolved, the NRC issues notifications via email directly to the proposing institutions' authorizing officials.

Selection of an application for award is not an authorization to begin performance. Any costs incurred before receipt of the Notice of Award are at the recipient's risk. See [Section IV.4](#), "Funding Restrictions."

### **1. Required Federal Citations**

Program Authority: Section 31b and 141b of the Atomic Energy Act of 1954 as amended.

**2. Authority and Regulations:** This program is described in the Catalog of Federal Domestic Assistance at <http://www.cfda.gov/> and is not subject to the intergovernmental review requirements of Executive Order 12372, amended by E.O. 12416 and supplemented by E.O. 13132. Financial assistance awards are made under the

authorization [42 U.S.C. § 2051](#). All awards are subject to the cost principles and other considerations described in [2 CFR Part 200](#), Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards.

### **3. Non-Delinquency on Federal Debt**

The Federal Debt Collection Procedure Act, 28 U.S.C. 3201 (e), provides that an organization or individual that is indebted to the United States, and has a judgment lien filed against it, is ineligible to receive a Federal grant. NRC cannot award a grant unless the authorized organizational official of the applicant organization certifies, by means of his/her signature on the application, that the organization is not delinquent in repaying any Federal debt. If the applicant discloses delinquency on a debt owed to the Federal Government, NRC may not award the grant until the debt is satisfied or satisfactory arrangements are made with the agency to which the debt is owed.

## The Nuclear Regulatory Commission's Standard Terms and Conditions for U.S. Nongovernmental Recipients

### Preface

This award is based on the application submitted to, and as approved by, the Nuclear Regulatory Commission (NRC) under the authorization [42 USC 2051\(b\)](#) -pursuant to section 31b and 141b of the Atomic Energy Act of 1954, as amended, and is subject to the terms and conditions incorporated either directly or by reference in the following:

- Grant program legislation and program regulation cited in this Grant and Cooperative Agreement.
- Restrictions on the expenditure of Federal funds in appropriation acts, to the extent those restrictions are pertinent to the award.
- Code of Federal Regulations/Regulatory Requirements – [2 CFR Part 200](#), Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards.

Any inconsistency or conflict in terms and conditions specified in the award will be resolved according to the following order of precedence: public laws, regulations, applicable notices published in the Federal Register, Executive Orders (E.O.), Office of Management and Budget (OMB) Circulars, the NRC's Mandatory Standard Provisions, special award conditions, and standard award conditions.

Certifications and Representations: These terms incorporate the certifications and representations required by statute, executive order, or regulation that were submitted with the SF424B application through [GRANTS.GOV](#).

### **I. Mandatory General Requirements**

The order of these requirements does not make one requirement more important than any other requirement.

**1. Applicability of 2 CFR 200.** All provisions of 2 CFR Part 200 and all Standard Provisions attached to this grant/cooperative agreement are applicable to the Recipient and to sub-recipients which meet the definition of "Recipient" in 2 Part [§200.86](#), unless a section specifically excludes a sub-recipient from coverage. The Recipient and any sub-recipients must, in addition to the assurances made as part of the application, comply and require each of its sub-awardees employed in the completion of the project to comply with [Subpart D of 2 CFR 200](#) and include this term in lower-tier (sub-award) covered transactions.

Recipients must comply with monitoring procedures and audit requirements in accordance with [2 CFR Part 200, Subpart F—AUDIT REQUIREMENTS](#).

### **2. Award Package**

The Recipient is obligated to conduct project oversight as may be appropriate, to manage the funds with prudence, and to comply with the provisions outlined in [2 CFR Part 200](#). Within this framework, the Principal Investigator (PI) named on the award face page, is responsible for the scientific or technical direction of the project and for preparation of the project performance reports. This award is funded on a cost-reimbursement basis, not to

exceed the amount awarded as indicated on the face page, and is subject to a refund of unexpended grant funds to the NRC.

The non-Federal entity alone must be responsible, in accordance with good administrative practice and sound business judgment, for the settlement of all contractual and administrative issues arising out of procurements related to its grant award. These issues include, but are not limited to, source evaluation, protests, disputes, and claims. These standards do not relieve the non-Federal entity of any financial or fiduciary responsibilities or obligations arising under its grant, including sub-contracts and sub-awards, or any other contractual or financial obligation. The Federal awarding agency will not substitute its judgment for that of the non-Federal entity unless the matter is primarily a Federal concern. Violations of law will be referred to the local, State, or Federal authority having proper jurisdiction. See [2 CFR § 200.318\(k\)](#), General Procurement Standards.

### **Subawards**

[Appendix II to Part 200](#) Contract Provisions for Non-Federal Entity Contracts Under Federal Awards

Sub-recipients, sub-awardees, and contractors have no relationship with NRC under the terms of this grant/cooperative agreement. All required NRC approvals must be directed through the Recipient to NRC. See [2 CFR § 200.318](#).

### **Nondiscrimination**

This provision is applicable when work under the grant/cooperative agreement is performed in the U.S. or when employees are recruited in the U.S.

The Recipient agrees to comply with the non-discrimination requirements below:

- Title VI of the Civil Rights Act of 1964 (42 U.S.C. §§ 2000d et seq.), which prohibits discrimination on the grounds of race, color, or national origin in any program or activity receiving federal financial assistance.
- Title IX of the Education Amendments of 1972 (20 U.S.C. §§ 1681 et seq.), which prohibits discrimination on the basis of sex in any education program or activity receiving federal financial assistance.
- Section 504 of the Rehabilitation Act of 1973, as amended (29 U.S.C. § 794), which prohibits discrimination on the basis of disability in any program or activity receiving federal financial assistance.
- The Age Discrimination Act of 1975, as amended (42 U.S.C. §§ 6101 et seq.), which prohibits discrimination on the basis of age in any program receiving federal financial assistance.
- The Americans with Disabilities Act of 1990 (42 U.S.C. §§ 12101 et seq.), which prohibits recipients from discriminating on the basis of disability in employment (Title I); State and local government services (Title II); and places of public accommodation and commercial facilities (Title III).
- Parts II and III of E.O. 11246, as amended by E.O. 11375, 11478, 12086, 12107, 13279, 13665, and 13672, which prohibits federal contractors and federally assisted construction contractors and subcontractors, who do over \$10,000 in Government business in one year, from discriminating in employment decisions on the basis of race, color, religion, sex, or national origin and requires that

government contractors take affirmative action to ensure that equal opportunity is provided in all aspects of their employment.

- E.O. 13166, "Improving Access to Services for Persons with Limited English Proficiency," which clarifies that national origin discrimination under Title VI includes discrimination on the basis of limited English proficiency (LEP) and requires that the recipient take reasonable steps to ensure that LEP persons have meaningful access to programs and activities.
- Any other applicable non-discrimination law(s).

Generally, Title VII of the Civil Rights Act of 1964, 42 U.S.C. § 2000e et seq, provides that it shall be an unlawful employment practice for an employer to discharge any individual or otherwise to discriminate against an individual with respect to compensation, terms, conditions, or privileges of employment because of such individual's race, color, religion, sex, or national origin. However, Title VII, 42 U.S.C. § 2000e-1(a), expressly exempts from the prohibition against discrimination on the basis of religion, a religious corporation, association, educational institution, or society with respect to the employment of individuals of a particular religion to perform work connected with the carrying on by such corporation, association, educational institution, or society of its activities.

#### **Modifications/Prior Approval**

NRC's prior written approval may be required before a Recipient makes certain budget modifications or undertakes particular activities. If NRC approval is required for changes in the grant or cooperative agreement, it must be requested and obtained from the NRC Grants Officer in advance of the change or obligation of funds. All requests for NRC prior approval, including requests for extensions to the period of performance, should be made, in writing (which includes submission by e-mail), to the designated Grants Officer 30 days before the proposed change. The request should be signed by the authorized organizational official. Failure to obtain prior approval, when required, from the NRC Grants Officer, may result in the disallowance of costs, or other enforcement action within NRC's authority.

#### **Lobbying Restrictions**

The Recipient will comply, as applicable, with provisions of the Hatch Act (5 U.S.C. §§1501-1508 and 7324-7328) which limit the political activities of employees whose principal employment activities are funded in whole or in part with Federal funds.

The Recipient will comply with provisions of 31 USC § 1352. This provision generally prohibits the use of Federal funds for lobbying in the Executive or Legislative Branches of the Federal Government in connection with the award, and requires disclosure of the use of non-Federal funds for lobbying.

The Recipient receiving in excess of \$100,000.00 in Federal funding shall submit a completed Standard Form (SF) LLL, "Disclosure of Lobbying Activities," regarding the use of non-Federal funds for lobbying within 30 days following the end of the calendar quarter in which there occurs any event that requires disclosure or that materially affects the accuracy of the information contained in any disclosure form previously filed. The Recipient must submit the SF-LLL, including those received from sub-recipients, contractors, and subcontractors, to the Grants Officer.

The report should be submitted electronically to:

[Grants\\_FFR.Resource@NRC.GOV](mailto:Grants_FFR.Resource@NRC.GOV). **(NOTE: There is an underscore between Grants and FFR).**

**Period of Performance** – [2 CFR § 200.309](#)

The recipient may charge to the Federal award only allowable costs incurred during the period of performance and any costs incurred before the NRC or pass-through entity made the Federal award that was authorized by the NRC or pass through entity.

Unless otherwise authorized in [2 CFR Part 200](#) or by special award condition, any extension of the award period can only be authorized by the Grants Officer in writing. Assurances of funding from other than the Grants Officer shall not constitute authority to obligate funds for programmatic activities beyond the expiration date.

The NRC Grant Officer may authorize a no cost extension of the period of performance. However, the NRC has no obligation to provide any additional prospective or incremental funding. Any modification of the award to increase funding and to extend the period of performance is at the sole discretion of the NRC.

Unless otherwise stated, Recipient payments are made using the [Department of Treasury’s Automated Standard Application for Payment \(ASAP\) system](#), [ASAP.gov](#), through preauthorized electronic funds transfers. To receive payments, Recipients are required to enroll with the Department of Treasury, Financial Management Service, and Regional Financial Centers, which allows them to use the on-line method of withdrawing funds from their ASAP established accounts. The following information is required to make ASAP withdrawals: (1) ASAP account number – the award number found on the cover sheet of the award; (2) Agency Location Code (ALC) – 31000001; and Region Code. ## **II. Audit Requirements**

### **Audits**

Organization-wide or program-specific audits are performed in accordance with the Single Audit Act of 1996, as amended, and as implemented by [2 CFR Part 200, Subpart F—AUDIT REQUIREMENTS](#). Recipients are subject to the provisions of this subpart if they expend \$750,000 or more in a year in Federal awards. See [2 CFR 200.501](#).

The Form SF-SAC and the Single Audit Reporting packages for fiscal periods ending on or after January 1, 2008 are submitted online, as follows:

<http://harvester.census.gov/fac/collect/ddeindex.html>;
2. Complete the Form SF-SAC;
3. Upload the Single Audit;
4. Certify the Submission; and
5. Click "Submit."

Organizations expending less than \$750,000 a year are not required to have an annual audit for that year but must make their grant-related records available to NRC or other designated officials for review or audit.

## **III. Programmatic Requirements**

### **Grant Performance Metrics**

The Office of Management and Budget requires all Federal Agencies providing funding for educational scholarships and fellowships as well as other educational related funding to report on specific metrics. These metrics are part of the Academic Competitiveness Council's (ACC) 2007 report and specifically relates to Science, Technology, Engineering, and Mathematics (STEM) curricula.

The performance (technical) reports will contain brief information as prescribed in the applicable uniform administrative requirements [2 CFR §200.328](#). In addition to the customary performance progress report requested on the SF-PPR, SF-PPR-B, and SF-PPR-E forms, OCHCO requires the following metrics to be reported on by the awardees as follows:

#### **Faculty Development Metrics:**

1. How many faculties have been sponsored by NRC funding?
  - a. Response is the number of faculty sponsored, for this reporting period and cumulative to the grant.
2. How many items have the sponsored faculty produced, for example, Professional Journal articles, publications, patents, or conference reports?
  - a. Response is the type and number of items, for this reporting period and cumulative to the grant.

**Unsatisfactory Performance**

Failure to perform the work in accordance with the terms of the award and maintain at least a satisfactory performance rating may result in designation of the Recipient as high risk and the assignment of special award conditions. Further action may be required as specified in the standard term and condition entitled "Remedies for Noncompliance."

Failure to comply with the award provisions may result in a negative impact on future NRC funding. In addition, the Grants Officer may withhold payments; change the method of payment from advance to reimbursement; impose special award conditions; suspend or terminate the grant.

**Other Federal Awards With Similar Programmatic Activities**

The Recipient will immediately notify the Project Officer and the Grants Officer in writing if after award, other financial assistance is received to support or fund any portion of the program description stated in the NRC award. NRC will not pay for costs that are funded by other sources.

**Prohibition Against Assignment By The Recipient**

The Recipient will not transfer, pledge, mortgage, or otherwise assign the award, or any interest to the award, or any claim arising under the award, to any party, banks, trust companies, or other financing or financial institutions without the written approval of the Grants Officer.

**Site Visits**

The NRC, through authorized representatives, has the right to make site visits to review project accomplishments and management control systems and to provide technical assistance as required. If any site visit is made by the NRC on the premises of the Recipient or contractor under an award, the Recipient shall provide and shall require his/her contractors to provide reasonable access to all facilities and provide necessary assistance for the safety and convenience of the Government representative in the performance of his/her official duties.

**IV. Miscellaneous Requirements****Criminal and Prohibited Activities**

The Program Fraud Civil Remedies Act ([31 U.S.C. §§ 3801-3812](#)), provides for the imposition of civil penalties against persons who make false, fictitious, or fraudulent claims to the Federal government for money (including money representing grant/cooperative agreements, loans, or other benefits).

False statements ([18 U.S.C. § 287](#)), provides that whoever makes or presents any false, fictitious, or fraudulent statements, representations, or claims against the United States shall be subject to imprisonment of not more than five years and shall be subject to a fine in the amount provided by 18 USC §287.

**Increasing Seat Belt Use in the United States**

**Federal Employee Expenses**

Federal agencies are barred from accepting funds from a Recipient to pay transportation, travel, or other expenses for any Federal employee unless specifically approved in the terms of the award. Use of award funds (Federal or non-Federal) or the Recipient’s provision of in-kind goods or services, for the purposes of transportation, travel, or any other expenses for any Federal employee may raise appropriation augmentation issues. In addition, NRC policy prohibits the acceptance of gifts, including travel payments for Federal employees, from Recipients or applicants regardless of the source.

**Minority Serving Institutions (MSIs) Initiative**

Pursuant to E.O.s 13230 and 13270, [amended by E.O. 13316 and 13385](#), 13532, 13592, 13555, 13515, and 13621, NRC is strongly committed to broadening the participation of MSIs in its financial assistance program. NRC’s goals include achieving full participation of MSIs in order to advance the development of human potential, strengthen the Nation’s capacity to provide high-quality education, and increase opportunities for MSIs to participate in and benefit from Federal financial assistance programs. NRC encourages all applicants and Recipients to include meaningful participations of MSIs. Institutions eligible to be considered MSIs are listed on the Department of Education website:

**Research Misconduct**

Scientific or research misconduct refers to the fabrication, falsification, or plagiarism in proposing, performing, or reviewing research, or in reporting research results. It does not include honest errors or differences of opinions. The Recipient organization has the primary responsibility to investigate allegations and provide reports to the Federal Government. Funds expended on an activity that is determined to be invalid or unreliable because of scientific misconduct may result in a disallowance of costs for which the institution may be liable for repayment to the awarding agency. The Office of Science and Technology Policy at the White House published in the Federal Register on December 6, 2000, a final policy that addressed research misconduct. The policy was developed by the National Science and Technology Council ([65 FR 76260](#)). The NRC requires that any allegation be submitted to the Grants Officer, who will also notify the OIG of such

allegation. Generally, the Recipient organization shall investigate the allegation and submit its findings to the Grants Officer. The NRC may accept the Recipient's findings or proceed with its own investigation. The Grants Officer shall inform the Recipient of the NRC's final determination.

**Publications, Videos, and Acknowledgment of Sponsorship**

Publication of the results or findings of a research project in appropriate professional journals and production of video or other media is encouraged as an important method of recording and reporting scientific information. It is also a constructive means to expand access to federally funded research. The Recipient is required to submit a copy to the NRC and when releasing information related to a funded project include a statement that the project or effort undertaken was or is sponsored by the NRC. The Recipient is also responsible for assuring that every publication of material (including Internet sites and videos) based on or developed under an award, except scientific articles or papers appearing in scientific, technical or professional journals, contains the following disclaimer:

“This [report/video] was prepared by [Recipient name] under award [number] from [name of operating unit], Nuclear Regulatory Commission. The statements, findings, conclusions, and recommendations are those of the author(s) and do not necessarily reflect the view of the [name of operating unit] or the US Nuclear Regulatory Commission.”
