

Biosafety Protection and Research with rDNA/ SiRNA (IBC) Workshop

The Office of Research Integrity (ORI)
cordially invites you to attend

Date: **Wednesday, June 29,
2016**

Time: **2:00 p.m.—3:30 p.m.**

Location: **AHC 4—402 (Academic Health Center 4)**

The purpose of the Biosafety Protection and Research with rDNA/SiRNA (IBC) Workshop is to provide students, faculty and staff with an introduction to the Institutional Biosafety Committee (IBC), and discuss how to determine if IBC review is applicable for their studies. We have also collaborated with the FIU Department of Environmental Health and Safety (EH&S) to provide an overview on the importance of conducting work with recombinant or synthetic nucleic acid molecules safely. Additionally we will review the steps required for obtaining IBC approval for new study applications in the TOPAZ online system. Please note this workshop fulfills training and continuing education requirements for Responsible Conduct in Research (RCR).

This workshop is optional training.

To register for this workshop: Please contact Elvia (Eva) Molina at molinae@fiu.edu or call (305) 348-0056.
