Proposal Routing	18

Overview

All proposals to external sponsors for projects that will involve University faculty and/or staff must be reviewed and approved by the Office of Research & Economic Development (ORED) for compliance with federal and state statutes and regulations as well as sponsor and FIU guidelines, policies and procedures prior to forwarding the proposal to the prospective sponsor. Proposals may not be submitted to the sponsor absent ORED approval.

In alignment with the goals of the Office of Research & Economic Development to enable the University's researchers to focus more of their time and resources on the programmatic aspects of their applications during the proposal process, the **Electronic Proposal Routing Approval Form (ePRAF)** has been implemented. The ePRAF allows the electronic routing of proposals throughout the entire review and approval process from the PI / Co-PIs, to the Chair, Dean and ORED. The Office of Pre-Award, within ORED, is the unit within the university that will assist faculty and staff with their proposal submissions. In order for Pre-Award to review and approve the proposal, it must be entered and routed using the ePRAF.

Understanding PantherSoft Proposals

A proposal in PeopleSoft Grants consists of a statement of work, research plans, technical reports, and a proposal budget, as well as administrative, personnel, and submission information that is required by external funding agencies.

Each proposal requires at least one project. You can, however; have multiple projects within a single proposal.

After establishing basic setup information in PeopleSoft Grants, you can enter data concerning proposals and projects, structure proposal budgets, work with research plans of Principle Investigators (PIs), and submit proposals to sponsors.

The proposal pages help you:

- Track the development, verification, and submission status of proposals to sponsors.
- Gather and organize proposal data.
- Facilitate the administration of proposals, awards, and forms.

Proposal Internal Clearance

Proposal Information

Critical Fields in the ePRAF:

Proposal Information		
Field	Action	Comment
Proposal Title	Enter the actual title of the proposal as it is listed on the sponsor's application.	
Layman's Proposal Description	Enter a brief description geared towards the general public about the proposed project.	
Opportunity Number	Enter the opportunity number as it is listed on the solicitation.	
Proposal Type	Select the correct proposal type	See Proposal Type Section for specific definitions and actions.
Grant Type	Select the correct grant type.	<p>The grant types available are as listed below. Select the most appropriate category.</p> <p> APRES - Applied Research BARES - Basic Research CLIN - Clinical Trial COMM - Community Service DVRES - Development Research EQUIP - Equipment FELLO - Fellowship IND - Investigational New Drug INT - Internal </p> <p>See Grant Type Section for specific definitions.</p>
CFDA	When applicable, enter the federal CFDA number listed on the proposal.	<p>This is the Catalog of Federal Domestic Assistance (CFDA) number which helps the Federal Government track all programs it has domestically funded. Federal programs are assigned a CFDA number.</p> <p>##.###: CFDA number taken from RFP or guidelines (including Federal Flow Through)</p> <p>##.UKN: On a rare occasion, the federal sponsor may be unable to provide a CFDA #. In this case, assign an UKN CFDA # for the agency in order to accommodate this federal requirement. There has been one unknown CFDA # created for each federal agency.</p> <p>Example: Dept. of Agriculture = 10.UKN</p> <p>N/A: Private Funding (Non-Federal & Non-Federal Flow Through Companies/ Colleges/ State/ Local/ Foundations etc...)</p>
Proposal Deadline	Select the correct deadline type.	
Deadline Date	Enter the deadline date for the proposal.	

Project Begin Date	Enter the project begin date.	
Project End Date	Enter the project end date.	
Summary Periods	Enter the number of summary periods for this proposal.	

2. Click the **Build Periods** button to populate the Budget Periods section below.

*Project Begin Date: *Project End Date: *Summary Periods:

Budget Periods			
Period	*Begin Date	*End Date	Target Sponsor Budget

Proposal Type

Proposal Information	
Proposal Type	Comments
Competing Renewal	<p>These types of proposals are requests for continued support for an existing project that is about to terminate, and, from the sponsor’s viewpoint, generally have the same status as an unsolicited proposal. Competing continuation proposals compete with other competing continuation, competing supplemental, and new proposals for funds.</p> <p>A new ePRAF is required for Competing Renewal.</p>
New Proposal	<p>A new proposal that is not associated with an existing proposal or award.</p> <p>A new ePRAF is required for all New Proposals</p>
Non-Competing Continuation	<p>This is a request for financial assistance for a second or subsequent budget period within a previously approved project period. This type of proposal confirms the original proposal and funding requirements of the multi-year project. Continued support is usually contingent on satisfactory work progress, as verified in a required report, and the availability of funds.</p> <p>An ePRAF is NOT required and any documentation associated with a Non-Competing Continuation should be loaded to ImageNow.</p> <p>***Documentation should NOT be attached to the existing proposal and data within the existing ePRAF should NOT be modified.</p>
Preliminary Proposal	<p>This type of proposal is requested when a sponsor wishes to minimize an applicant’s effort in preparing a full proposal.</p>

	<p>They are usually in the form of a letter of intent or a brief abstract of what the PI plans to do, how the PI will conduct the project and why this project has merit.</p> <p>A pre-proposal establishes a foundation for discussion; it does not commit the PI or the University to anything. However, since these proposals often do become the basis for negotiation for funding, if a budget is included in the submission, an ePRAF will need to be submitted with the proposal type Preliminary Proposal.</p>
Resubmission	<p>An unfunded application that has been modified following initial review and resubmitted for new consideration.</p> <p>A new ePRAF is required with revised documentation attached and a new Proposal ID generated.</p>
Supplemental	<p>A request for additional funds either for the current operating year or for any future year recommended previously. When this type is selected, the associated award/proposal field appears.</p> <p>A new ePRAF is required for supplemental submissions.</p> <p>Enter the Associated Award/Proposal ID in the Associated Award/Proposal Field.</p> <p>*Associated Award/Proposal <input type="text"/></p>

Grant Type

Proposal Information	
Grant Type	Comments
APRES – Applied Research	Original investigation undertaken in order to acquire new knowledge that is directed primarily towards a specific practical aim or objective or towards improving the human condition.
BARES – Basic Research	Systematic investigation, including research development, testing and evaluation, designed to develop or contribute to general knowledge.
CLIN – Clinical Trial	A carefully designed and rigorously controlled study or series of studies to provide extensive data that will allow for statistically valid evaluation of the safety and efficacy and therapeutic benefit(s) of drugs, devices, treatments, or other preventive measures and use human volunteers or animals as subjects.
COMM – Community Service	Academic, non-instructional services that translate and transfer FIU’s intellectual and professional knowledge, expertise, and resources into the public realm for practical purposes designed to meet quality-of-life needs of a changing society.

DVRES – Development Research	Developmental research is a systematic use of knowledge or understanding gained from research directed toward the production of useful materials, devices, systems or methods.
EQUIP – Equipment	Solely for purchase or fabrication of scientific equipment.
FELLO – Fellowship	Individualized mentored research training to enhance the potential research career of the candidate or gain new research skills as an independent investigator.
IND – Investigational New Drug	All clinical research projects involving drugs or biologics which are not FDA-approved for marketing must be reviewed by the FDA. This is done by filing an Investigational New Drug Application (IND) with the Food and Drug Administration (FDA).
INT – Internal	As part of the overall mission to support research across the University, Internal Grants and Awards are designed to encourage, facilitate, and reward research activities among FIU faculty and students. The programs are intended to support research efforts of faculty, postdoctoral associates, and graduate students
TRNG – Training Activities	Support for research training and career development for pre- and post-doctoral individuals, for support of theses or dissertation, or other undergraduate scholarly activities.

Sponsor Information

Navigation: Smart Solutions > Smart Documents > Smart Proposal Entry

Sponsor Information

*Sponsor ID:

Phone:
Fax:

Is this a subcontract? Yes No

Phone:
Fax:

Critical fields in the Sponsor section:

Sponsor Information		
Field	Action	Comment
Sponsor ID	Select the Sponsor from the list provided.	If the Sponsor ID is not found, please select Sponsor # 99999999 – TBD. Enter any relevant information including name and address associated with the sponsor. <i>If the Sponsor has not been setup in the PantherSoft System, fill out the Sponsor Request Form and forward to the Budget and Cost Analysis (BCA) area for setup.</i>
Is this a subcontract?	If this is a <i>Flow Through</i> , select Yes and enter the originating sponsor information.	Example: We submit the proposal to UF who is submitting to the NIH. Sponsor is UF and Prime is NIH.
Phone	N/A	If a Phone number is associated to the Sponsor and/or Subcontract, this field will automatically be populated upon the selection of the Sponsor and/or Subcontract
Fax	N/A	If a Fax number is associated to the Sponsor and/or Subcontract, this field will automatically be populated upon the selection of the Sponsor and/or Subcontract

Contact Information

Navigation: Smart Solutions > Smart Documents > Smart Proposal Entry

Contact Information

*Principal Investigator:

PI Email:

PI Home Department:

Department Administrator:

DA Email:

PreAward Coordinator:

Email ID:

Proposal Comments

Critical fields in the Contact section:

Contact Information		
Field	Action	Comment
Principal Investigator	Select the Principal Investigator. If there are multiple PIs associated with this proposal, enter the information for the main PI.	PI Email and PI Department will be automatically populated once a PI is selected. If the PI is currently not listed, please select Employee ID 1510000 – Investigator, T.B.D.
PI Email	N/A	This field will automatically populate once a Principal Investigator is selected
PI Home Department	N/A	This value is automatically populated once the Employee ID is selected. The Home Department is the department identified as the Employee’s home work location for their primary job as per the Human Resource system. This value cannot be updated.
Department Administrator	If applicable, select the department administrator.	DA Email will be automatically populated once an Administrator is selected.
PreAward Coordinator	No Action Required	This field will be populated by the Pre-Award representative.

<p>Proposal Comments</p>	<p>Enter any additional comments related to the proposal.</p>	<p>This field is optional.</p>
---------------------------------	---	--------------------------------

Proposal Questions Section

Navigation: Smart Solutions > Smart Documents > Smart Proposal Entry

▼ Main Section

- 1 Does the agency forbid Facilities and Administrative (F&A) Costs? If so, please check 'Yes' and attach documentation. Yes No
- 2 Is this proposal a result of a previously executed Non Disclosure Agreement or Teaming Agreement? Yes No
- 3 Will this proposal span across multiple colleges? If so, please check 'Yes' and indicate F&A percentage split between colleges in the comment box. Yes No
- 4 If funded, would you permit the Office of Research & Economic Development to include your proposal as part of the successful proposal collection? The proposal collection is used as a reference for other faculty members interested in pursuing external funding. (Note: The file will be password protected so only FIU faculty can access the information.) Yes No
- 5 If this project is funded would you be willing to provide research opportunities to undergraduate students? If yes please indicate in the comment box whether such opportunities would be paid or unpaid. Yes No

▼ Safety Assurance

- 6 Does this project involve any of the following? Yes No
 - (1) Hazardous Chemicals/Nanomaterials
 - (2) Biohazard/Biomedical Materials or Waste
 - (3) Medical Surveillance
 - (4) Explosives/Carcinogens
 - (5) Research Diving/Boating
 - (6) Select Agents or Toxins
 - (7) Radioactive Materials
 - (8) Lasers
 - (9) Controlled Substances
 - (10) Environmental Permits and/or Licenses

The questions listed in this section pertain to the nature and details of the actual proposal and **MUST** be answered.

If the following questions have been answered **'Yes', additional information is required:**

Proposal Additional Information		
Question No.	Question Text	Comment
3	Will this proposal span across multiple colleges? If so, please check 'Yes' and indicate F&A percentage split between colleges in the comment box.	Enter the F&A percentage split each college should receive. Example: CAS: 50%, ENG: 50%
13	Will any part of this project involve work outside the United States? If 'Yes', please identify countries.	A country MUST be entered if this question has been answered 'YES'.

Once all the questions have been answered, click on the '**Goto Projects**' link, which is located at the bottom left of the screen.

Project Team Information

Navigation: Smart Solutions > Smart Documents > Smart Proposal Entry

Critical fields in the Proposed Projects section:

Project Team Information		
Field	Action	Comment
Project ID	Click on the  to insert additional Project ID's	The Project ID will be automatically generated by the system. If there are multiple projects, a primary project must be indicated by selecting the checkbox marked 'primary'. There may only be one 'primary' project per proposal.
Project Title	Enter a Project Title	This value is automatically derived from the Proposal Title. If the project title is different than the proposal title, this value should be changed accordingly.

To avoid any issues when adding project team members, you **MUST** save the ePRAF by clicking the 'Save' Icon which is located on the top left portion of the screen prior to entering team members.'

The PI will be automatically populated based on the information entered in the proposal page of the ePRAF. Each project **MUST** have one and only one Principal Investigator. The employee Role for the PI must be 'Principal Investigator'. Please note that for Multiple PI projects the PI listed will be the Contact PI. The other PIs should be listed as Co-PIs.

Additional team members can be added by clicking on the plus sign  within the project team section.

Critical fields in the Proposed Team section:

Project Team Information		
Field	Action	Comment
Empl ID	Click on the  icon to select the Employee ID associated with the team member	The Employee ID will be automatically entered when an employee is selected.
Employee Name	No Action Required	This value is automatically populated once the Employee ID is selected.
Employee Role	Click on the  to select the employee role	'Principal Investigator' must be selected as the PI role. There may be <i>one and only one PI per project</i> .
Home Department	Enter the F&A Share %	This value is automatically populated once the Employee ID is selected. The Home Department is the department identified as the Employee's home work location for their primary job as per the Human Resource system.
Home Department Description	No Action Required	This value is automatically populated once the Employee ID is selected. The Home Department Description is the department associated with the Home Department ID identified as the Employee's home work location for their primary job as per the Human Resource system.
F and A Share %	Enter the F&A Share %	This is the Facilities & Administrative (F&A) percentage that will be shared among the project team members. This value will default to 100% for the principal investigator. Adjust the distribution of F&A to team members.
% Effort	Enter the % effort	Enter the percentage of effort that the Principal Investigator and other personnel intend to commit to the project.
Additional Team Team Member	Click the plus sign  to add additional team members	

Special Tips Regarding the Project Team Section

- **Very Important** Always save your proposal before you begin working with the Project Team
- Always add & save all project team members **BEFORE** you delete members.
- You **MUST** have one and only one Principal Investigator on each project team.

Department Credit Information

Navigation: Smart Solutions > Smart Documents > Smart Proposal Entry

Critical fields in the Department Credit section:

Department Credit Information		
Field	Action	Comment
Primary Checkbox	Each project must have one and only one 'Primary Department'	This field represents the Department which will be receiving 'primary' credit for this proposal.
Primary Department Credit	Click on the to select the department id	This is the Department that will receive departmental credit on this ePRAF.
Primary Department Description	No Action Required	This field is automatically populated based upon the Primary Department ID which is selected
Additional Departments	Click the plus sign to add departments	

Project Space Information

Navigation: Smart Solutions > Smart Documents > Smart Proposal Entry

Critical fields in the Space Required section:

The Campus, Building and Room fields are required **prior to** an ePRAF being saved.

Project Space Information		
Field	Action	Comment
Campus	Select the campus where the project will take place.	This field is REQUIRED , if the project will take place at an off-site location or a location that does not exist in the system, please enter the Principal Investigator’s main office and/or the office of any other individual associated with this proposal and then use the fields located below for the off campus location(s).
Building	Select the building where the project will take place.	This field is REQUIRED , if the project will take place at an off-site location or a location that does not exist in the system, please enter the Principal Investigator’s main office and/or the office of any other individual associated with this proposal and then use the fields located below for the off campus location(s).
Room	Select the room where the project will take place.	This field is REQUIRED , if the project will take place at an off-site location or a location that does not exist in the system, please enter the Principal Investigator’s main office and/or the office of any other individual associated with this proposal and then use the fields located below for the off campus location(s).

The remaining fields and questions regarding space are required and should be answered. Any comments should be included in the applicable message box.

Budget Header

The budget represents an integral part of a research proposal. It captures budget line details and provides access to data such as the annual salaries, fringe rates, and F&A (Facilities and Administration) rates.

The screenshot shows the 'Budget Header' interface. At the top, there is a 'Find' button and navigation controls for '1 of 1' records. Below this is the 'F & A and Pricing Setup' section, which includes fields for '*Budget ID:' (containing 'SPN'), 'Description:', '*Start Date:', and '*End Date:'. Below the setup section is the 'Budget Period' section, which contains a table with columns for 'Period 1 Details', 'Begin Date', 'End Date', and 'Amount'. The table currently shows one row for 'Period 1 Details'.

The Budget Header contains two sections:

- F&A and Pricing Information
- Budget Details

F&A and Pricing Information

	Select 'Ok' to load the attachments or 'Cancel' to exit the screen	

Proposal Routing

All proposals and pre-proposals which include budget information or a total cost estimate must be routed through the Office of Pre-Award for review and approval.

By electronically signing the proposal, the project team member, department, school or college indicates that the proposal project has their approval.

Navigation: Smart Solutions > Smart Documents > Smart Proposal Entry

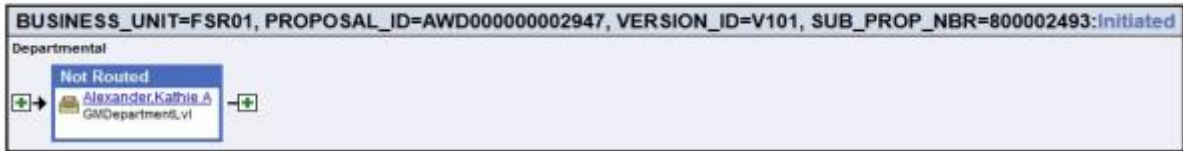

In order to submit your proposal you must verify the workflow map. Click on 'Preview' from the Workflow Icon dropdown menu.

Approval Map

Departmental

Division of Research

1. By Default the project's Principal Investigator will be the first approver. Additional approvers and reviewers can be added before or after the PI as needed by clicking on the on either side of the PI.
2. Once you have all of the necessary reviewers and approvers in the correct order your proposal is ready to be submitted, simply click the 'Submit' icon located at the top left of the screen.

Note: The routing process is not complete until the ORED Office of Pre-Award has electronically signed the proposal.
