Agarwal, Arvind

College of Engineering & Computing
Mechanical & Materials Engineering
Office of Naval Research
Continuation
Boron Nitride Nanotube Reinforced Titanium Matrix Composites \$150,000

Agoulnik, Alexander

Herbert Wertheim College of Medicine
Human & Molecular Genetics
Diabetes & Digestive & Kidney Diseases
Increase
Relaxin receptor agonists for treatment of liver fibrosis \$43,478

Allen, Timothy

College of Arts, Sciences & Education
Center for Children & Families
National Institute of Mental Health
Initial
Role of the nucleus reuniens in the temporal organization \$61,641

Alluri, Priyanka

College of Engineering and Computing
Civil & Environmental Engineering
Florida Department of Transportation
Initial
Generation of Safety Analyst Import Files for Years 2015 and 2016 \$39,941

Amick III, Benjamin C

Robert Stempel College of Public Health and Social Work
Health Policy & Management
Institute for Work & Health
Initial
IWH Research Partnership in Occupational Health and Safety \$62,000

Asencio, Miguel

Academic Affairs - Other Units
Library Operations
Council on Library & Information Resources
Initial
Digital Library of the Caribbean CLIR Postdoctoral Fellowship \$167,700

Azizinamini, Atorod

College of Engineering and Computing
Civil & Environmental Engineering
Florida Department of Transportation
Initial
Magnetic Flux Leakage (MFL) Method for Damage Detection \$175,560
