New Intellectual Property Disclosure System Available December 1, 2019!

ORED's Office of Technology Management and Commercialization (OTMC) is pleased to announce the implementation of a fully online intellectual property (IP) process.

Effective December 1, 2019, FIU investigators will submit all IP disclosures online using the disclosure form at <http://research.fiu.edu/disclosure/>. Please note that we will still process any paper disclosures that we receive up until November 30, 2019. After this date, this online portal will be the sole pathway for submitting IP disclosures.

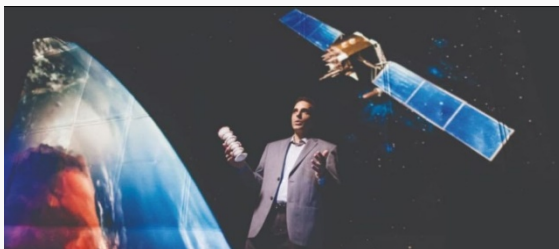

This new system allows members of the FIU community to submit all IP disclosures online. The investigators can login to the database using their FIU credentials, access all intellectual property disclosure records in a central location, and check the status of their disclosure in real time from anywhere with an internet connection.

The form has fewer fields and does not require signatures, which simplifies and speeds up the process by reducing paperwork and administrative burden. Overall, the online

portal makes it easy for researchers and staff to submit their IP disclosures with minimal impact on their time. Early feedback has been very positive.

FIU researchers received over \$15M in August 2019
