## **DIVING ACCIDENT MANAGEMENT PLAN**

It is the responsibility of the Diving Supervisor, Lead Diver or Designated Person In Charge (DPIC) to ensure that a emergency procedures are pre-planned and that personnel have been briefed in the course of action to take in case of a diving accident or injury, prior to the start of any diving operation.

### **General Procedures**

In case of a diving accident or injury, stabilize the patient, administer 100% oxygen, and initiate local Emergency Medical Services (EMS) for transport to the nearest medical treatment facility or recompression chamber facility.

- 1. Rescue victim and /or position so the proper procedure may be initiated.**
- 2. Establish (C) 30 compressions (A) airway and (B) 2 breath.**
- 3. Administer 100% Oxygen**
- 4. Activate local EMS or US Coast Guard / notify them of the accident and your evacuation procedure.**
- 5. Contact Divers Alert Network for medical advice if necessary.**
- 6. Contact Diving Safety Officer (DSO) and designated Emergency Contact**
- 7. Complete and submit Incident Report Form to DSO**

### **Emergency Contact Numbers:**

- \* US Coast Guard - VHF Radio Channel 16
- \* Local EMS - Dial 911
- \* Diver Alert Network (DAN) - (919) 684-9111 or (800) 446-2671
- \* Diving Safety Officer - Roger Garcia (305) 509-2523
- \* Assistant Diving Safety Officer - Anne Sevon (215) 359-6661
- \* Naval Experimental Diving Unit - (850) 230 - 3100
- \* Naval Diving and Salvage training Center (850) 234 - 4651
