Research Information Systems

The mission of Research Information Systems (RIS) is to strengthen the information technology/data infrastructure for research and graduate studies processes at Florida International University (FIU). The team provides support to the [Office of Research and Economic Development](#) and the [University Graduate School](#) and also collaborates with various stakeholders across the University on technology/data projects benefiting the FIU research and graduate studies communities.

See the following [university-wide research applications](#) that have been implemented and are supported by RIS.

Need Assistance?

Submit a [request for assistance](#) and someone from the team will be in contact with you.

Below is a listing of contacts within Research Information Systems.

NAME	TITLE	PHONE #
David Driesbach	Assistant Vice President for Research	(305) 348-7256
Ernesto Cruet	Sr. Applications Business Analyst	(305) 348-4528
Lia Duran	IT Assistant Director	(305) 348-0007
Daniel Gutierrez	Systems Administrator II	(305) 348-2521

Research Reports

Research Facts & Figures

<https://research.fiu.edu/facts-figures/>

FIU continues building research infrastructure to support the goals of research breakthroughs and discoveries. Research at FIU focuses on addressing scientific challenges, as well as the social and economic needs of Florida and the nation. The Office of Research and Economic Development (ORED) provides leadership in research administration, supports the endeavors of the University's research community, and ensures the responsible stewardship of research activities. ORED accomplishes its mission by minimizing the impediments to research activity, promoting research conduct that meets the highest standards of ethical integrity, and ensuring that research activity is compliant with all local, state, and federal regulations.

Research awards totaled \$189M during fiscal year 2021-2022. Additionally, research expenditures grew to \$246M during fiscal year 2020-2021. FIU also retained the top tier Carnegie Classifications of Institutions of Higher Education category for doctoral research universities – R1: Doctoral University – Highest Research Activity.

In addition to the data presented on this site, please also reference FIU's [Accountability Website](#).

FIU Research About Researcher Resources Happenings Facts & Figures

You are here: Home / Award Management / Research Financial Reports

Research Financial Reports

There are two excel-based financial reports to help you manage your award(s) and track awarded research activity in the PantherSoft system:

- 1. The Project Financial Report**

Generates within six tabs of one excel file a comprehensive amount of information about a project ID including a Project Summary, a Payroll Detail, a Expenditure Detail, and a Procard Detail Sheet.

[Click here](#) to access the Financial Reports Training Guide for additional information on running the Project Financial Report individually.

The Project Financial Report is created centrally for all active projects on a monthly basis and placed on the FIU Research Intranet site. [Click here](#) to access the Project Financial Reports on the FIU Research Intranet site
- 2. The Departmental Research Summary Report**

The Departmental Research Summary Report generates a summary of research financial activity (a row for each Project ID) within a PantherSoft organization (Department ID). There are multiple columns of information for research financial activity since the implementation of PantherSoft for Grants Financial Management in July 2009.

The Departmental Research Summary report can be run within PantherSoft Financials. [Click here](#) to access the Financial Reports Training Guide for additional information on running the Departmental Research Summary Report individually

Faculty Success Initiatives

Program Mission:

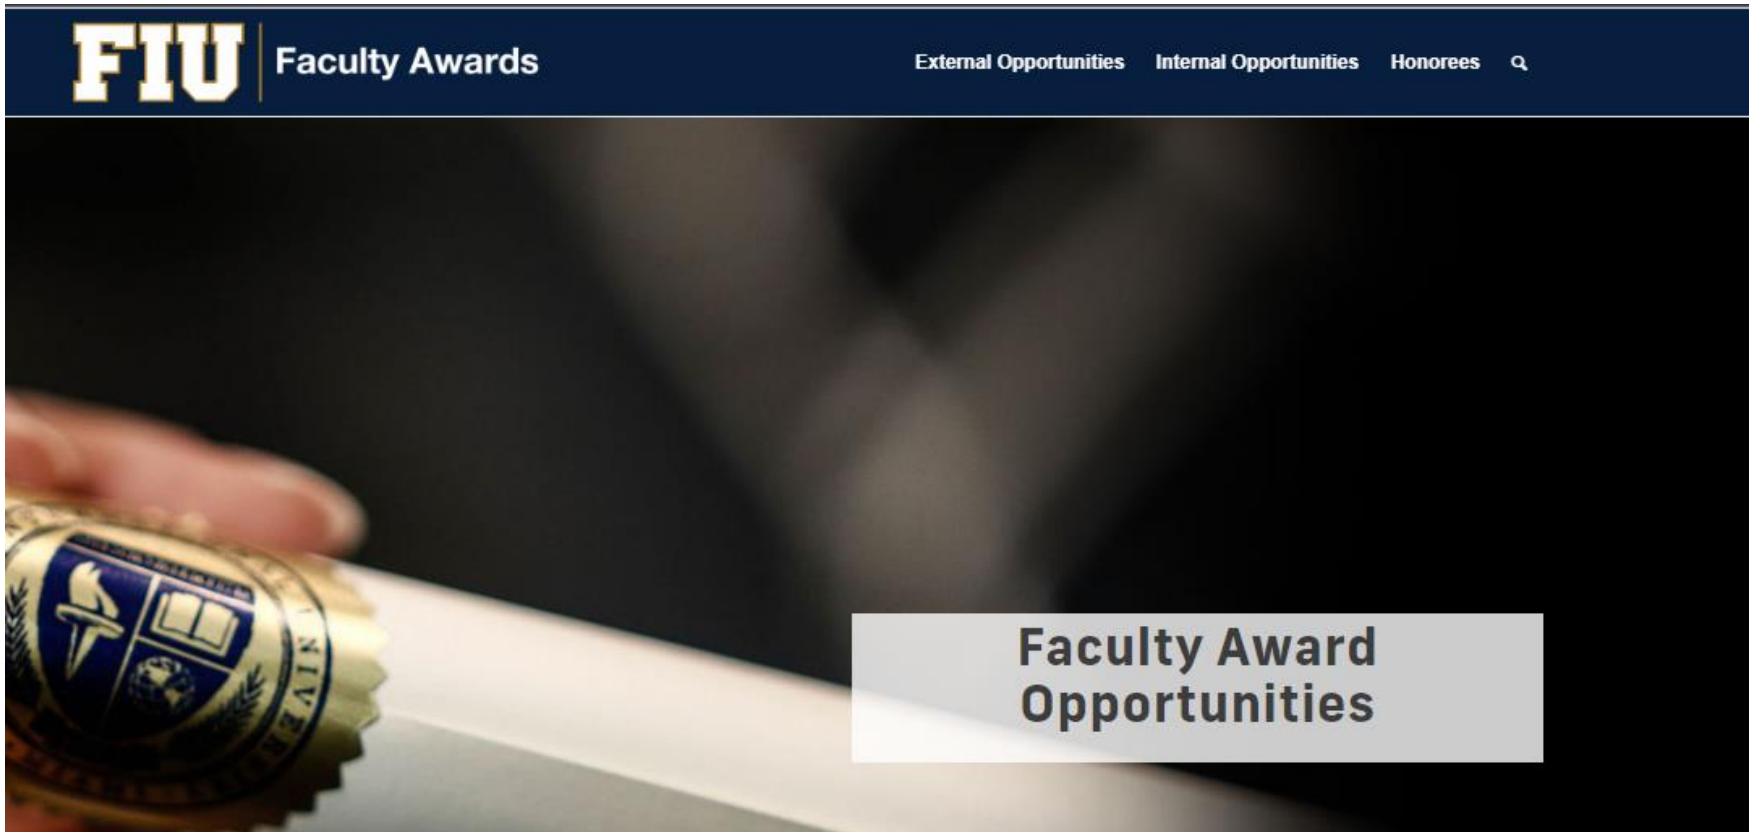

Promote faculty success in finding collaborators, communicating impact, and reducing burden by automating high quality information to various digital touchpoints.

Four interrelated initiatives in alignment with mission:

- Finding faculty awards
- Optimizing digital presence
- Finding collaborators
- Assessing scholarly productivity information that is not optimized

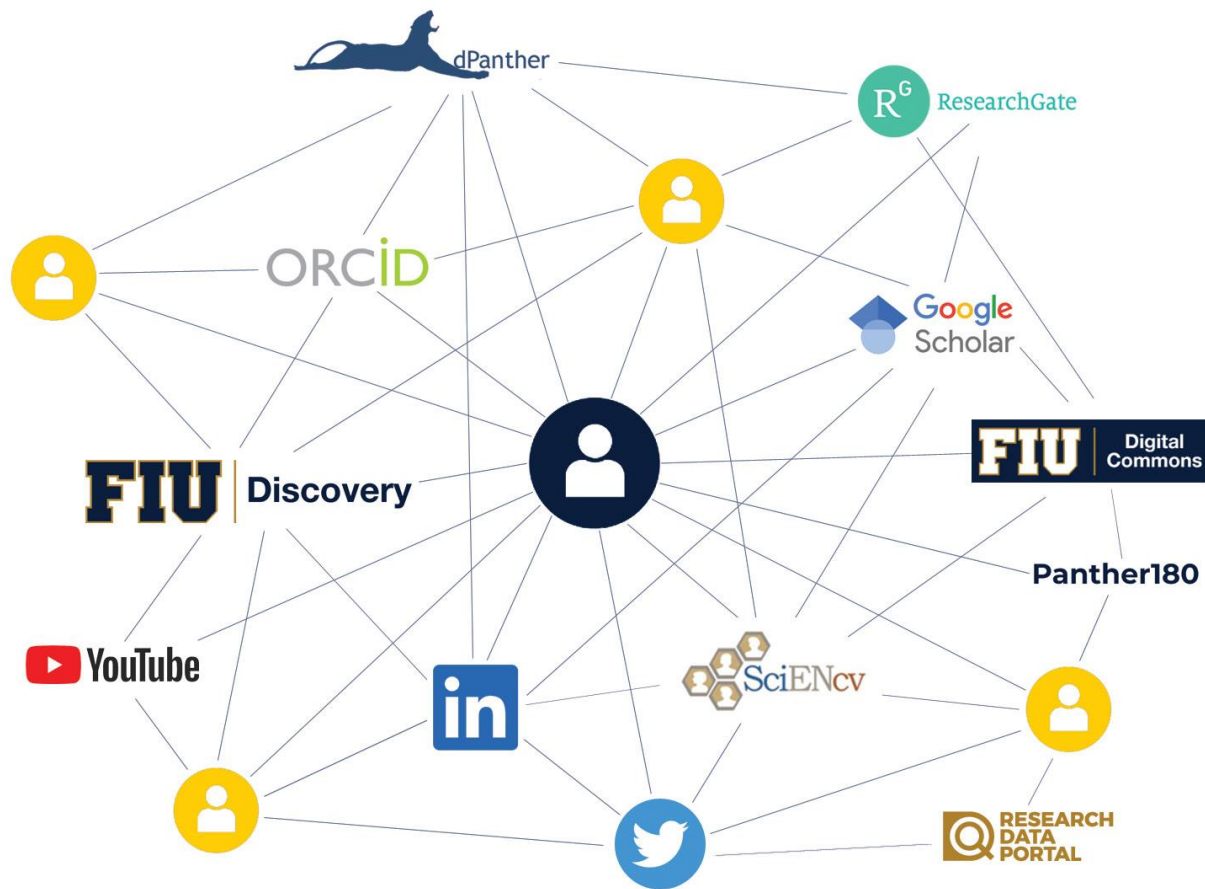

Finding Faculty Awards

Faculty Awards website : <https://facultyawards.fiu.edu>

Optimizing Digital Presence

'Optimize Your Digital Presence' site: <https://research.fiu.edu/digitalpresence/>

Finding Collaborators
